

MACHINING SERVICES FOR LARGE PIECES

TURNKEY DELIVERIES

MACHINERY AND FACILITIES RENTALS

CAPABLE PARTNER AT YOUR SERVICE

We are the leading machining service provider in western Finland. We also deliver a range of different kinds of turnkey solutions for steel construction, marine and offshore industries with assembly, welding, machining and other services. We are located at the industrial region of the city of Rauma and we are connected to the large network of industrial service, engineering and manufacturing providers. With our partners we are able to provide the wide range of industrial solutions from engineering to construction and final assembly.

We have modern top of the line machinery for machining and in house capabilities for IIW authorized International Welding Engineer supervision. Our two workshops and machining equipment make it possible to execute deliveries of different sizes and from one off product to manufacturing of series. We also rent our manufacturing and office facilities as well as sell and rent material handling and lifting equipment. Our management system complies with ISO 9001 and 14001 standards and is certified by DNV GL.

We also provide warehousing services. Our warehousing services include outdoor, indoor, warm space and customs warehousing.

FACILITIES

Voltitie 18, Rauma

Machining workshop 3200 m² with lifting capacity 2x10 t, 20 t and 25 t

Latomäentie 2, Rauma

Welding and assembly workshop 3200 m² with lifting capacity 3x10 t, 16 t and 25 t and office and social space 680 m²

MILLING BORING MACHINES

Fpt Spirit

Longitudinal travel (X)	14000 mm
Cross travel (Z)	1500 mm
Vertical travel (Y)	4000 mm
Axes	hydrostatic
Spindle motor	62,5 kW
Milling head	microindexed, all positions with 0,01 mm accuracy
Software	CNC Heidenhain iTNC530 HSCI
Rotating sliding table	dim. 3000 x 3000 mm, weight 30000 kg
Table longitudinal travel	2000 mm
Year	2015

Fpt Area

Longitudinal travel (X)	10000 mm
Cross travel (Z)	1500 mm
Vertical travel (Y)	3500 mm
Axes	hydrostatic
Spindle motor	37,0 kW
Milling head	microindexed, all positions with 0,01 mm accuracy
Software	CNC Heidenhain iTNC530 HSCI
Rotating sliding table	dim. 2500 x 3000 mm, weight 30000 kg
Table longitudinal travel	1500 mm
Year	2007

Fpt Tessen

Longitudinal travel (X)	3500 mm
Cross travel (Z)	1020 mm
Vertical travel (Y)	1500 mm
Axes	linear
Spindle motor	27,0 kW
Milling head	microindexed, all positions with 0,01 mm accuracy
Software	CNC Heidenhain iTNC530 HSCI
Rotating sliding table	dim. 1000 x 1000 mm, weight 8000 kg
Year	2008

EQUIPMENT RENTAL AND SALES

Forklifts 37 t, 16 t, 10 t, 8 t, etc.
Terminal tractors and translifters

EVETCO OY IN SHORT

Industrial manufacturing company with machining as main line of business.
Other lines of businesses are turnkey deliveries, warehousing, machinery and facilities rental.
Warehousing services including outdoor, indoor, warm space and customs warehousing.
Company established in 2004.
Management system ISO 9001:2008 and ISO 14001:2004 certified by DNV GL.
Welding supervision by IIW authorized International Welding Engineer.
Modern state of the art milling boring machines.
Well established and equipped manufacturing spaces.
Located in the city of Rauma with excellent road, railway and sea transport connections.
